

Wedding Case Study

Choosing Kippure Estate...

We chose Kippure as our venue because it had such a relaxed atmosphere, rustic yet comfortable design concept, beautiful untouched surroundings, and the wedding options were flexible and economical. It was the **only** venue that provided all of these criteria within Leinster – and we did our homework!

Wedding Organisation and Planning...

Sinead and Janette provided us with everything we needed upon request. From the outset, we received a very personalized, attentive service, which instantly made us feel at ease and confident that Kippure would do everything to make our wedding day special.

The Big Day...!

All of our guests felt very welcome and at home at Kippure. The staff were professional at all times, but remained approachable and fun. All staff members were willing to help out and answer questions at all times, even if the question being asked was not regarding their particular responsibility.

The facilities were even better than expected. The large reception room was a great canvas to create our own look and feel. Kippure was very flexible and accommodating with our design ideas. The accommodation was very good. The houses were bright, comfortable, spacious and incredibly economical.

Delicious food...

The food variety, presentation, quality and waiting staff were all excellent. Kippure was incredibly flexible and full of suggestions while we were creating our food plan. All of our guests complimented the food, which is not typical of a wedding! This says a lot about the recipes and level of quality that went into the ingredients of the canapés, wedding menu and the BBQ the next morning. The vegetarian options were just as good as the rest of the menu.

There was nothing off the tops our heads that could be improved! Everything about our wedding was perfect. Thank you for everything Sinead. You and Janette made our day faultless :o).
